## IMPROVEMENTS / CHANGES

### PRODUCTION / INSTALLATION IMPROVEMENTS

#### Battery Door change:

- The battery door has been redesigned to use a push pin design that requires users to push down on the “release” button in conjunction with rotating the door counterclockwise 45 degrees.
- Removing the need for the door tab, eliminates the need of an additional tool to access the battery door, while still complying with CPSC’s regulation UL4200A-2023

#### QR Code Addition:

- QR code will send installer and end user to a mobile friendly webpage the Push Series Family where users will be able to select their specific remote and find the following:
  - Interactive Mobile Programming guide
  - How to/ troubleshooting videos
