A simple, safe upgrade from manual to motorised shade operation

Discover the ease and simplicity of the Automate Basics Wand Motor, which features essential up, down, and stop functions for effortless shade adjustment. This cordless, child-safe system provides a seamless upgrade from manual chain operation to convenient automation, offering an accessible and affordable motorised shade solution.

Simple, Intuitive Operation

Operation is as simple as pressing a button with essential up, down and stop functionality.

Easy upgrade from manual to motorisation

Take the winder out and replace with a motor, eliminating the need to re-order blinds. * Check roller tube compatibility.

Easy to recharge

Accessible USB-C port on base of wand provides convenient charging access.

Magnetic Wand

The wand features a magnetic tip for easy connection to the motor, especially in hard-to-reach areas, and is detachable for controlling multiple blinds throughout the home.
