

# AUTOMATE™

## Surface Mount Wall Switch - 5Ch

The Automate range of controllers offers the Surface Mount Wall Switch - 5Ch, an easy mount wall switch that screws directly to the surface of the wall, allowing simple installation.

### FIVE CHANNELS

Activate shades individually or within customised groups with five programmable channels.

### MAGNETIC BACKING PLATE

Install using the magnetic backing plate to use the control panel as a removable remote.

### FIXED BACKING PLATE

Install using the secure backing plate to use the control panel as a fixed wall switch.

### SIMPLE WALL ATTACHMENT

Screws directly to the surface of the wall with no wiring or cutting required and is compatible with any Automate system.
