

# Regulatory Compliance

**FCC ID: 2AGGZMT0201014**  
**IC: 21769-MT0201014**

## Specifications:

|                     |   |
|---------------------|---|
| Brand   Description | AUTOMATE   Push5 Channel Remote                           |
| Model Name          | MT02-0101-050004 (Black)<br>MT02-0101-067004 (Milk White) |
| Voltage             | 3VDC  |
| Work Current        | 15mA Max.   |
| Work Frequency      | 433.92MHz   |
| Modulation Type     | FSK   |
| Antenna Type        | PCB Antenna   |
| Digital Device Type | Class B   |
| Radiated Power      | <10mW   |
| Operation Distance  | 40m (typical)   |
| Protection Class    | III   |
| Battery             | CR2430  |
| Operation Temp.     | 23°F to 131°F (-5°C to 55°C)                              |
|                     |   |
|                     |   |
|                     |   |
|                     |   |
|                     |   |
|                     |   |

Rollase Acmeda declares this equipment complies with the essential requirements and other relevant provisions of the following directives and standards:

|                                   |  |
|-----------------------------------|--|
| 2014/35/EU                        | The Low Voltage Directive  |
| 2014/30/EU                        | The Electromagnetic Compatibility Directive  |
| 2014/53/EU                        | The Radio Equipment Directive  |
| 2011/65/EU, 2015/863              | The RoHS Directive   |
| IEC/EN 62368-1                    | Audio/video, information and communication technology equipment<br>Part 1: Safety Requirements |
| EN301 489                         | EMC Standard for Radio Equipment and Services  |
| UN38.3                            | UN Transport Test and Criteria for Lithium Batteries   |
| EN300 220                         | SRD operating in the Frequency Range 25MHz-1000MHz   |
| EN62479<br>EN50663<br>1999/519/EC | Article of RED 3.1.a:) Health  |
| FCC Part 15C                      | 47 CFR 15C – Intentional Radiators   |
| RSS-210 Issue 9                   | Licence-Exempt Radio Apparatus: Category I Equipment   |
| RSS-Gen Issue 5                   | General Requirements for Compliance of Radio Apparatus   |
| ANSI C63.10                       | American National Standard of Procedures for Compliance Testing of Unlicensed Wireless Devices |
| RSS-102 Issue 5                   | IC SAR assessment  |
|                                   |  |

## FCC / ISED Statements

This device complies with Part 15 of the FCC. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
